The boys are: Neal Bailey, 16; Harold Stanislaw, 14; and Wesley Emmons, 19. Two of the boys, Bailey and Stanislaw, were arrested by Deputy Sheriff Carl Black this morning and Emmons was arrested late Friday.

Statements were made by the boys before Criminal District Attorney Morrison in which they admitted the burglary.

Sheriff Valter White said they had recovered $2.80, one class ring, one gold ring, and a hat. The Sheriff said that about $7.50 represented the amount of money left in the locker rooms by the boys. Deputy Sheriff Carl Black was still searching for other articles stolen.

The statements made by the boys were not available to the Herald for publication Saturday afternoon. The boys are believed to have entered the lockers through a window or may have been locked in the Gymnasium and committed the burglary after all had left the rooms.

There is no protection for property locked up in these rooms and this is the second burglary committed during football games.

It is a black eye for Cameron and apologies should be expressed to the good people of Marlin and the boys should be reimbursed for the losses by the School Board of the Athletic Council for failure to provide better protection for property of their guests.

SHOW DOWN IS DUE IN THE FAR EAST

Japan has not answered the American note which set out a formula for peace in the Pacific but had shown a disposition to go ahead with agression plans by bombing the Burma road and planting new forces off Thailand.

Officially Tokyo said that an attempt on the part of the United States to protect he Burma road would be regarded as an unfriendly act.

In Washington it was believed that Japan would make an early reply to the American blue print for peace in the Pacific.

There was growing belief that a show down is at hand. It may be said that Japan believes the United States will not fight. All the American government has said thus for is that she will increase aid to China if Thailand is attacked.

Washington late Friday said that an attack on Thailand will put Japan squarely under the burden of entire responsibility for war in the far east.

From reports reaching the Daily Herald Saturday it appeared Japan is on the brink of war with the United States and if war is precipitated it will be an overt act on the part of the Japs.

Andrew Jackson Raymond Born in Alton, Ill. Says Town Was Bigger Than St. Louis; Came To Cameron in 1885; Will Be 81 January 8th

A. J. Raymond of Cameron received a letter from his sister, Mrs. Amelia Goudie in St. Louis yesterday telling of the death of Mrs. Clyde Dyas Weinbrenner, wife of J. Ray Weinbrenner, attorney of that city.

A newspaper clipping is enclosed. They are relatives of Mr. Raymond.

J. Ray Weinbrenner is the son of the late George Weinbrenner, a cousin of Mr. Raymond. He is an attorney and former Judge of the Court of Criminal Correction.

Mr. Raymond talked a bit of old times. George Weinbrenner, was a former city marshal in St. Louis, Sheriff of the county and for years Jury Commissioner and a political leader during the days when St. Louis was a sprawling town along the Mississippi.

Mr. Raymond who enjoys the special privilege of having his Daily Midget set aside for him, is a welcome caller every afternoon at the Herald plant. He was born in 1861 in Alton, Ill. At that time and for some years Alton was bigger than St. Louis.

As a young man Mr. Raymond followed his father's trade, a carpenter, contractor and builder. On display at The Herald are some very fine tools which were brought to America by his father who was born in Alsace-Loraine which was taken from France by Germany in the war of 1871.

He came to Cameron in 1881 and has seen some mighty changes in these parts. He married Miss Emma Cross whose family settled on the Brazos River in Milam county, northeast of Maysfield. It was at Maysfield that Mr. Raymond married.

With his bride he came to Cameron and is the father of 7 children, all reared in Cameron. Mrs. Raymond died about 8 years ago.

Mr. Raymond spends his time now reading the Midget and taking things sort of easy like. He reads books and periodicals. He will be 81 years old on January 8th. That's Jackson Day and his name is Andrew Jackson Raymond.

Paris Heard Hangs Up Football Togs; Picks One of 16 Colleges

Last Wednesday night when the Thomas High Bulldogs journeyed to Rockdale for their annual game with old rivals the game was dedicated to the Bulldog star, Paris (Bubba) Heard.

Heard was wearing the purple and gold for the Thomas school the last time. This is Heard's sixth and final year of football for Thomas High.

Heard has made a remarkable record. During his six years of play he has tallied 567 points and filled a time sheet of 1748 minutes despite occasional injuries.

Heard, in addition to his football record, is nationally known for his track performances. In the State Interscholastic League track meets he is second to none.

While being out of form last track season with pulled muscle, Heard encouraged his running mate to participate in track events he is none other than Freddie Lee Reeves the boy who didn't seem to know there was any place like second and third. He won first place at the state meet in all events in which he entered.

Along with Heard playing their final game were E. L. Aycock, end; Red Moseley, guard; Mutt Martin, tackle; and Capt. A. G. Whiteside, back and also a three year letterman.

Heard is sought by 16 negro colleges but has decided to attend Prairie View.

Heard always took advantage of every opportunnty to watch the Yoemen play and thinks Hays, Salach and Nicholson are the best.

WASHINGTON MAY BE FORCING THE ISSUE

The United States government has demanded an answer to the note handed Ambassador Nomura giving a formula for peace in the Pacific.

Furthermore America will not wait for an answer any longer than is ordinarily required in such matters.

This morning Karusu, special envoy saw Sumner Wells, under Secretary of State for ten minutes, the shortest conference yet held in the present crisis.

Karusu was very grave and curt to newspaper men.

With Russia defeating Germany in the East the Japs are in the shadow of a momentous decision. This situation may have been sensed by the government in Washington and elected to drive home a bargain at this time.

Germany was facing a military disaster in the Southeast. Her forces are shattered and in disorderly retreat leaving much war booty to the Russians.

The Moscow front has been stabilized but the Russians are in hot pursuit of the Germans east of Rostov.

Japan was represented as desiring more talk. America was getting fed up on the talk. Unless Japan can be knocked out of the Axis and put out of China war is certain.

Japan was said to have rejected the American bid for settlement which was that Japan get out of China, get out of the Axis and wash her hands of agression. Japan is said to have rejected this proposal.

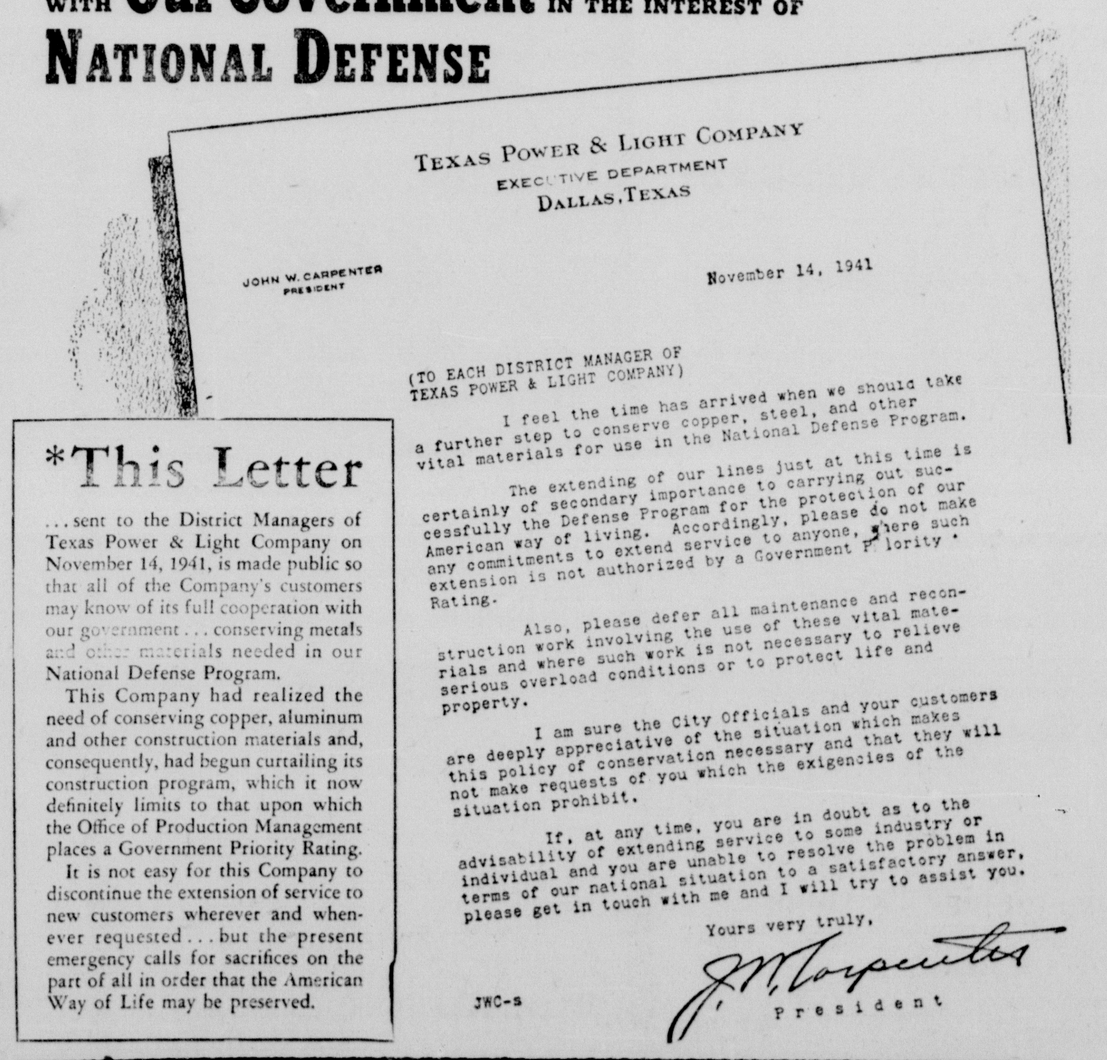
AN OPEN LETTER* ABOUT CO-OPERATION WITH Our Government IN THE INTEREST OF NATIONAL DEFENSE



TEXAS POWER & LIGHT COMPANY
EXECUTIVE DEPARTMENT
DALLAS, TEXAS

JOHN W. CARPENTER
PRESIDENT

November 14, 1941

(TO EACH DISTRICT MANAGER OF
TEXAS POWER & LIGHT COMPANY)

I feel the time has arrived when we should take a further step to conserve copper, steel, and other vital materials for use in the National Defense Program.

The extending of our lines just at this time is certainly of secondary importance to carrying out successfully the Defense Program for the protection of our American way of living. Accordingly, please do not make any commitments to extend service to anyone, where such extension is not authorized by a Government Priority Rating.

Also, please defer all maintenance and reconstruction work involving the use of these vital materials and where such work is not necessary to relieve serious overload conditions or to protect life and property.

I am sure the City Officials and your customers are deeply appreciative of the situation which makes this policy of conservation necessary and that they will not make requests of you which the exigencies of the situation prohibit.

If, at any time, you are in doubt as to the advisability of extending service to some industry or individual and you are unable to resolve the problem in terms of our national situation to a satisfactory answer, please get in touch with me and I will try to assist you.

Yours very truly,

J. W. Carpenter
President

*This Letter ... sent to the District Managers of Texas Power & Light Company on November 14, 1941, is made public so that all of the Company's customers may know of its full cooperation with our government ... conserving metals and other materials needed in our National Defense Program.

This Company had realized the need of conserving copper, aluminum and other construction materials and, consequently, had begun curtailing its construction program, which it now definitely limits to that upon which the Office of Production Management places a Government Priority Rating.

It is not easy for this Company to discontinue the extension of service to new customers wherever and whenever requested ... but the present emergency calls for sacrifices on the part of all in order that the American Way of Life may be preserved.

FORMULA FOR FARMERS IN AAA PROGRAM GIVEN

To earn his full AAA payments in 1942, a Milam County farmer must do three things.

First, he must devote at least 25 per cent of his land to erosion-resisting crops or land uses at some time during the program year. Second, he must plant within his acreage allotments. Third, he must earn his soil-building allowance.

These three points were emphasized by F. L. Gregory, Chairman of the Milam County AAA Committee, this week.

A farmer falling below the 25 per cent minimum requirement will earn only a proportionate part of his cotton, wheat and peanut payments.

The soil-building allowance may be earned, as in previous years, by carrying out approved soil-builing practices, the AAA offical explained.

Crops meeting erosion-resisting classification include biennial and perennial legumes or grasses, cowpeas, soybeans, mung beans, velvet beans, sweet clover, rye grass, Natal grass, leaspedeza, crotalaria and winter legumes.

Other crops include 1941 fall-seeded small grains not harvested for gain, with the exception of wheat, If the oats, rye, barley and small grain mixtures are cut for hay, they must be cut prior to the dough stage, the AAA official explained.

Thick-seeded sudan not harvested for seed, sweet sorghums or millet for seed, sweet sorghums or millet for pasture; peanuts hogged-off; plant- and cover crops, also meet erosion-resisting requirements, he said.

The AAA chairman also pointed out that all fall-seeded crops must be seeded in the fall of 1941 to apply on the 1942 program.

RUSSIANS PUSH NAZI OUT OF SEVEN TOWNS

Despite German claims that Moscow is about to be occupied, the Russians were pushing the Germans back on 4 fronts in the east Saturday and it appeared the Nazi are in no wise close to victory any where in Russia.

The Germans officially announced this morning that they have abandoned Rostov which they hailed last week as a prize unequealed since the war began because it is the key to the Caucasus and the Donets Valley, rich Russian industrial region.

Officially Berlin said the town would be destroyed in the most ruthless manner conceivable. What is indicated no one seemed to know.

The Germans claimed to be making slow progress toward Moscow and would not confirm the the claims of the Russians who said their counter attacks reoccupied 7 towns southeast of the capital.

The British in Africa were tightening their grip and decisive battle is looked for within the next week or more. Berlin and Rome both denied that the British had broken through the Axis lines in Africa.

Big Still Taken On Brazos River

A large whisky still was conficated Friday by Sheriff Valter White.

The still was found on a farm near Block House Springs on the Brazos River.

The still had been under surveillance for sometime in an effort to make an arrest, but the officers were unsuccessful.

Sheriff White said they took 12 barrels of mash, 4 cooling barrels, and a cooking vat. The Sheriff said he is convinced of the ownership of the still, but in the absence of an arrest could make no statement.

It is the first whiskey still to be taken in this county in some time. Moonshining under National Prohibtion was a profitable local industry.

L. W. Tinam of Maysfield was a Cameron business visitor Friday.

Mr. and Mrs. Fontaine Flinn of Corpus Christi were Cameron visitors during the Thanksgiving holidays.

INSURANCE

THE VERICT OF THE YEARS IS SATISFACTION.

"Time Tried and Fire Tested"

INSURANANCE IS NOT AN EXPENSE—IT IS AN INVESTMENT IN SECURITY.

The Pioneers—it was land that brought them to the West!

They were hardy men who pushed our froniters toward the West. Men who knew what they wanted. Men who weren't to be stopped. What was the magnet that drew these men—many with their families—from the comparative security of the already settled East to the frontiers that had yet to be tamed? It was land. Land to own. To build upon. Land to grow crops on. No obstacle was too great for them!

LAND IS WEALTH

The frontiers are gone, but not the pioneers. There are still men with foresight. Men who love the land. People are still making sacrifices that they might win a parcel of this earth upon which we live. Be safe yourself. If you invest, invest in land!

Star of the East

Star of the East, that long ago
Brought wise men on their way
Where, angels singing to and fro,
The Child of Bethlehem lay—
Above that Syrian hill afar
Thou shinest out, tonight, O Star!

Star of the East, the night were drear
But for the tender grace
That with thy glory comes to cheer
Earth's loneliest, darkest place,
For by that charity we see
Where there is hope for all and me.

Star of the East, show us the way
In wisdom undefiled
To see that manger out and lay
Our gifts before the Child—
To bring our hearts and after them
Unto our King in Bethlehem!

—Eugene. Field.

Mistletoe Loses Charms When Berries Are Gone

In the language of flowers, Mistletoe means "give me a kiss." This has its basis in a Scandinavian myth. And from this old tale we derive our custom of kissing under the mistletoe.

As it hangs upon the chandelier or in the doorway, each lad may claim a kiss from the maid who chances beneath it with this provision: that the lad remove a berry to give to the maid, until, at last, when no berries are left, the bough loses its spell and no more kisses are then available.

The story continues "that the maiden who receives no kisses under the mistletoe will not marry that year."

BRITISH ARE FACING HARD LIBYAN FIGHT

Fear that Britain may be defeated in Libya today had caused grave reprocussions throughout England.

The members of Parliment were being asked why the enthusiasm when the campaign opened now that the Germans have seized the initiative and are making some headway against the British attack.

This uneasy picture was off set somewhat by the German debacle in the Southwest where the Russians have driven them more than 100 miles back from Rostov.

The Russians are also holding their own on the Central front around Moscow, but the Germans were said to be making some progress.

The Germans said that bad weather had caused their retreat from Rostov. The Russians say they are pursuing the Germans and that Hitler's army has abandoned much war material and many prisoners have been taken.

The crisis over the far eastern situation will have to be revived. The Diplomats in Washington have talked it to death.

Japan said that no information had been received on Roosevelt's request for an explanation of the new move on Indo-China.

The British have arrived in Hongkong with a large contingent of the fleet and for the first time in history a British battle ship steamed into the waters of China.

CHRISTIAN SCIENCE SERVICES

"God the Only Cause and Creator" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientists, on Sunday, December 7.

The Golden Text is: "Thou art worth, O Lord, to receive glory and honour and power; for thou hast created all things, and for thy pleasure they are and were created" (Revelation 4:11.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Blessed be the Good and Father of our Lord Jesus Christ, who hath blessed us with all spirtual blessings in heavenly places in Christ." (Ephesians 1:3.)

The Lesson-Sermon also includes the following passage from the passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Immortal spiritual man alone represents the truth of creation. When mortal man blends his thoughts of existence with the spiritual and works only as God works, he will no longer grope in the drak and cling to earth because he has not tasted heaven." (Page 263.)
